

Dear Mr North

At Oadby Vets4Pets we not only want the best possible care for your pet if they do fall ill, but strongly believe that prevention is better than cure. Through preventative veterinary medicine we aim to help your pets live longer and healthier lives.

In support of this until August 31<sup>st</sup> 2009 we are currently offering every pet owner who purchased a vaccination the chance to vaccinate their pet for life for just £99.

An additional £99 will provide every yearly booster vaccination thereafter absolutely free!\*\* Ensuring your pet gets protection from potentially life threatening diseases and providing your wallet with some welcome protection too.

The savings you can make on your yearly booster vaccinations costs are quite unbelievable.

If your pet is not yet a "senior citizen", you're guaranteed to make an amazing saving:

Age of Cat	Saving	Age of Dog	Saving
1	£523	1	£253
3	£440	3	£189
5	£357	5	£125
7	£274	7	£61

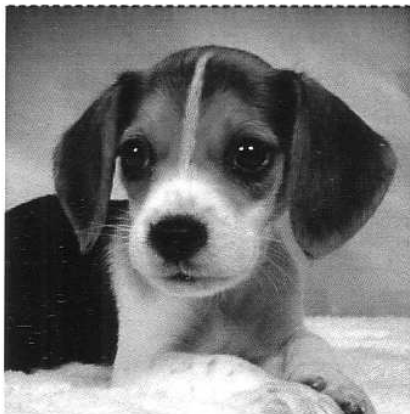

Figures are a guide only and are based on an average life expectancy of 16 years for cats (£41.50 annual vaccination fee) and 12 years for dogs (£32 annual vaccination fee).

So don't delay, call Oadby Vets4Pets right now to book an appointment on 0116 281 3322

Kindest regards

*Jackie Howell*
